VIRANGA LAKSHAN

LinkedIn: www.linkedin.com/in/viranga-lakshan-869515279
+94 71 378 1359 | Email: virangalakshanz@gmail.com

Associate Software Engineer and Full Stack Developer with experience building enterprise web applications, RESTful APIs, CMS-driven platforms, and cloud-based solutions using Java, Spring Boot, React, Next.js, Node.js, TypeScript, PostgreSQL, and AWS.

Experienced in delivering solutions for international and local clients, collaborating within Agile teams throughout the software development lifecycle. Skilled in Sitecore, Umbraco, API integration, DevOps practices, and modern cloud deployment strategies, with a strong focus on building secure, scalable, and high-quality software.

EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER – ARIMAC LANKA (PVT) LTD
DEC 11, 2025 – PRESENT

FULL STACK DEVELOPER INTERN – SLT DIGITAL LAB
JUNE 24, 2024 – SEPT 24, 2025

EDUCATION

- **COVENTRY UNIVERSITY**
  BSc (Hons) Computing (Part-time) | DEC 2024 – OCT 2026 (Expected)
- **NATIONAL INSTITUTE OF BUSINESS MANAGEMENT (NIBM) – SRI LANKA**
  HIGHER NATIONAL DIPLOMA IN SOFTWARE ENGINEERING | NOV 2023 – DEC 2024
- **NATIONAL INSTITUTE OF BUSINESS MANAGEMENT (NIBM) – SRI LANKA**
  DIPLOMA IN SOFTWARE ENGINEERING | OCT 2022 – NOV 2023

PROFESSIONAL PROJECTS EXPERIENCE

PROJECTS 01

MULTI-TENANT E-COMMERCE PLATFORM

Arimac Digital

Backend / full-stack developer on a microservices-based, multi-tenant e-commerce platform supporting customer-facing and administrative applications. The platform consists of Node.js BFF services, Laravel Lumen domain services, and a Strapi headless CMS.

- Developed and maintained **Node.js/Express BFF services** for customer and admin applications, aggregating and orchestrating APIs across multiple backend microservices.
- Developed and integrated **Laravel Lumen microservices** covering business domains including customers, orders, payments, products, promotions, tax, shipping, reporting, activities, and tenant management.
- Implemented **authentication and authorization** using Keycloak with OAuth2/OIDC and JWT, supporting secure access across distributed services.
- Integrated **Strapi CMS** and external REST APIs, while containerizing services with **Docker** and working with **GitLab CI/CD** for build and deployment workflows.

Tech stack: Node.js, Express.js, PHP 8, Laravel Lumen, Strapi CMS, Keycloak, OAuth2/OIDC, JWT, MySQL, Docker, GitLab CI/CD, REST APIs, Postman.

PROJECTS 02

ADRIK NEWS & MEDIA PLATFORM

Arimac Digital — Client: Adrik, Kuwait

Backend developer on a bilingual (English/Arabic) news and media platform for a Kuwait-based client, with paid subscriptions, newsletters, and a mobile app. Built as three Node.js BFF services connecting the web, mobile, and admin frontends to the core backend API.

- Developed and maintained **Node.js/Express BFF services** for web, mobile, and admin applications, aggregating and orchestrating calls to the core backend API.
- Implemented **authentication and user management with Keycloak** (OAuth2/OIDC, JWT), including email and social-media signup/login, token refresh, password reset, and **token validation middleware** for protected routes.
- Built APIs for **content and engagement features**, including region-based news feeds, search, category menus, paginated articles, comments, bookmarks, likes, author follows, and click tracking.
- Integrated **subscription and payment flows** with **OneSignal push notifications** and **SMS delivery** for newsletters and app download links.
- Containerized services with **Docker** and deployed to **Kubernetes** through **GitLab CI/CD** pipelines across development, UAT, and production environments.

Tech stack: Node.js, Express.js, Axios, Keycloak, OAuth2/OIDC, JWT, OneSignal, SMS Gateway API, REST APIs, Docker, Kubernetes, GitLab CI/CD.

PROJECTS 03

DIMO GATE PASS MANAGEMENT SYSTEM

Arimac Digital — Client: DIMO Lanka

Backend developer on a vehicle gate-pass and dispatch management platform for a large enterprise client, built as two Spring Boot microservices within a larger microservices architecture.

- Developed a **BFF/API gateway service** handling Keycloak OAuth2/JWT authentication, role-based approval workflows, Kafka-based audit event publishing, and integrations with SAP, Google Maps, Microsoft Graph/Azure AD, Strapi CMS, and AWS S3.
- Built the **core Gate Pass domain service**, implementing business logic and persistence using MySQL with Flyway-managed database schema migrations.
- Implemented secure file-upload handling using **AWS S3 with ClamAV virus scanning**, and integrated external enterprise services to support vehicle orders, distance calculation, user management, and content management.
- Containerized both services using **Docker** and supported CI/CD workflows through Jenkins and GitLab, with automated code quality and test coverage checks.

Tech stack: Java 21, Spring Boot 3.4.5, Spring Security, OAuth2/JWT, Spring Kafka, MySQL, Flyway, Docker, Jenkins, GitLab, Keycloak, AWS S3, Azure AD, Google Maps, Strapi CMS, ClamAV, SonarQube, JaCoCo.

PROJECTS 04

AL AIN MUSEUM V2 – SITECORE HEADLESS (IN PROGRESS)

Arimac Digital — Client: Al Ain Museum, UAE

Frontend and CMS developer working on the **rebuild of a multi-site Sitecore ecosystem**, developing a scalable Next.js/React frontend and integrating Sitecore Headless CMS through REST APIs.

- Leading the **frontend and Sitecore integration development** for the V2 platform, using Next.js, React, TypeScript, and Sitecore Helix principles.

- Replaced the previous GraphQL-based content integration with **REST API-based content retrieval**, providing greater control over content rendering and integration.
- Implemented custom logic to **recursively traverse and render nested Sitecore content structures**, supporting complex item hierarchies.
- Collaborating with stakeholders to translate business and digital requirements into **technical solutions and frontend/CMS implementations** for a government cultural institution platform.

Tech stack: Sitecore, Sitecore JSS, Next.js, React, TypeScript, C#, .NET, Sitecore Helix, REST APIs.

PROJECTS 05

HOLSTEN ARABIA – UMBRACO HEADLESS

Arimac Digital — Client: Holsten Arabia

Frontend and CMS developer on a headless CMS-based web platform for a global beverage brand, using Umbraco with a modern Next.js/React frontend to deliver a multilingual digital experience.

- Developed and maintained the **Next.js/React frontend** using TypeScript, integrating content from Umbraco through RESTful APIs.
- Worked with **Umbraco Headless CMS**, developing and managing custom content types, components, and structured content.
- Developed and customized **C#/.NET** components and integrations to support content delivery and frontend requirements.
- Implemented responsive frontend experiences and contributed to **platform stability and performance** across different devices and screen sizes.

Tech stack: Umbraco, Next.js, React, TypeScript, C#, .NET, REST APIs.

PERSONAL PROJECTS

PROJECTS 01 – NEXWARE FRONTEND

- **GITHUB** – https://github.com/viranga-lakshan/nexware-frontend
- **TECHNOLOGIES** – Next.js · React · TypeScript · Tailwind CSS · TanStack Query · Axios · Zustand · React Hook Form · Zod · Vercel
- **DESCRIPTION**
  - Built a warehouse/distribution dashboard with JWT auth, role-based routing, and REST API integration.
  - Built Inventory, Purchase Order, Reservation, and Admin modules with data validation and pagination.
  - Deployed the production frontend on Vercel with environment-based API config and GitHub Actions CI.

PROJECTS 02 – NEXWARE BACKEND

- **GITHUB** – https://github.com/viranga-lakshan/nexware-backend
- **TECHNOLOGIES** – Java 21 · Spring Boot 3 · Spring Modulith · Spring Security · JPA · PostgreSQL · Flyway · Redis · Kafka · JWT · OpenAPI (Swagger) · Docker · AWS EC2 · Neon · GitHub Actions
- **DESCRIPTION**
  - Built a modular monolith REST API for warehouse/distribution with JWT auth, role-based access control, and OpenAPI documentation.
  - Developed Auth, Inventory, Purchase Orders, Reservations, Warehouses, Suppliers, and Admin modules with validation, pagination, and domain event handling.
  - Deployed the production backend on AWS EC2 with Docker, custom domain (nexware.me), HTTPS, Neon PostgreSQL, and a GitHub Actions CI/CD pipeline.

PROJECTS 03 – NEXCART – FULL STACK E-COMMERCE PLATFORM

- **GITHUB (FRONTEND)** – https://github.com/viranga-lakshan/nexcart-web
- **GITHUB (BACKEND)** – https://github.com/viranga-lakshan/nexcart-api
- **TECHNOLOGIES** – React · TypeScript · Vite · Tailwind CSS · Redux Toolkit · RTK Query · Axios · React Router · React Hook Form · Zod · Node.js · Express · Prisma · PostgreSQL · JWT · Docker · AWS EC2 · GitHub Actions · Vercel
- **DESCRIPTION**
  - Built a full-stack e-commerce platform with JWT authentication, refresh tokens, role-based routing (User/Seller/Admin), and REST API integration.
  - Developed Storefront, Cart, Checkout, Orders, Seller Inventory, and Admin modules using Redux Toolkit, RTK Query, server-side pagination, and Zod form validation.
  - Deployed the production backend on AWS EC2 with Docker Compose and a GitHub Actions CI/CD pipeline; frontend on Vercel with environment-based API proxy configuration.

PROJECTS 04 – TUKTUK TRACKING API

- **GITHUB** – https://github.com/viranga-lakshan/tuktuk-tracking-api
- **TECHNOLOGIES** – Java 21 · Spring Boot 3 · Spring Modulith · Spring Security · JPA · PostgreSQL · Flyway · Redis · Kafka · JWT · OpenAPI (Swagger) · Docker · AWS EC2 · Neon · GitHub Actions
- **DESCRIPTION**
  - REST API for police tuk-tuk GPS tracking with dual authentication (JWT + device API keys), geographic RBAC, and 28+ endpoints.
  - Deployed on AWS EC2 with custom domain and HTTPS.

SKILLS

- **FRONTEND**
  React.js, Next.js, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query, Zustand
- **BACKEND**
  Java, Spring Boot, Spring Security, Node.js, Express.js, REST APIs, JWT Authentication, Keycloak (OAuth2/OIDC)
- **DATABASES**
  PostgreSQL, MySQL, MongoDB, Redis, Firebase
- **CLOUD & DEVOPS**
  AWS EC2, Docker, Kubernetes, GitHub Actions, GitLab CI/CD, Linux, Nginx
- **TOOLS & PRACTICES**
  Git, Swagger/OpenAPI, Kafka, Flyway, Agile/Scrum
- **CMS & DIGITAL EXPERIENCE PLATFORMS**
  Sitecore, Umbraco, Strapi
